HOUSEWIVES' WAR FORCES REDUCTION IN BUTTER PRICES

Fancy and Other Grades Down Because Women Are Using Substitutes.

By refusing to pay 40 cents a pound housewives of New York City have forced a five-cent reduction in the wholesale price of butter.

According to the new schedule the best butter is sold wholesale today for 20 cents a pound.

The housewives took the matter into their own hands, continued this commission man, and determined that there was no real reason for paying such a high price.

"We find that we must also educate the people regarding eggs," said the commission man.

"The housewife goes to the grocer and asks for strictly fresh eggs. Right here is where the public has to be educated.

"The wholesale quotation of eggs now is 55 cents, best storage 26; so allowing for a five-cent profit to the retailer there is bound to be quite a difference."

This commission man says that the boycott against high prices applies not only to the districts where the poorer class of people reside.

According to present indications there is no prospect of an increase in the price of butter during the winter.

ARE YOUR NOSTRILS CHOKED?

Why do you insist on having the germs filtered out of your drinking water and pay no attention to having the germs filtered out of the air you breathe?

For every person that dies of disease acquired from disease germs taken in drinking water, fifty others die or are made invalid for life from taking disease germs into the system from the air they breathe.

There is no cure for a cough unfiltered air. When you breathe unfiltered air, you are breathing in germs that will cause disease.

Mr. W. J. Morgan first consulted me four months ago when he had trouble with his nostrils as far back as I could remember.

Mr. Morgan has been under my care for four months, and reports that his hearing has improved.

This is who I am and what I have done. I graduated in medicine in New York in 1870.

"Prof. Leonard White, University of New York, the great specialist, said in alluding to medical education that I was a graduate of Bellevue Hospital."

If you suffer from congested nostrils, diseased nostrils, etc., you should see me.

Dr. J. C. McCoy, 233 Flatiron Building, Broadway and 2nd Street, New York.
